EXPERIENCE

Tech Customer Support Representative – TEKsystems (Seasonal Role)
March 2025 – September 2025 | Remote

- Resolved Tier 1 technical issues in a high-volume production environment, including password resets, authentication and login problems, and account access requests, consistently meeting SLA targets.
- Documented troubleshooting steps, resolutions, and escalations for every incident in the ITSM ticketing system, keeping audit-ready records and supporting service continuity.
- Analyzed recurring incidents to identify root causes, reducing repeat escalations and improving first-contact resolution.

Customer Service Representative (Technical Support) – Alorica
September 2024 – February 2025 | Remote

- Managed 50+ daily incidents in a high-volume production support environment while maintaining SLA compliance in a fully remote, HIPAA-compliant setting.
- Resolved EHR/EMR access issues, MFA resets, and account troubleshooting while maintaining full HIPAA and data privacy compliance.

Customer Service Representative, SME & Supervisor – Everise
September 2021 – December 2023 | Remote

- Led QA reviews and coached agents as Supervisor, improving team SLA scores and cutting repeat contacts.
- Resolved 50+ escalated tickets daily across three enterprise healthcare clients, covering access, onboarding, and system navigation.
- Trained staff on CRM/support platforms and authored knowledge base articles as SME.
- Earned three promotions (Representative to SME to Escalation Agent to Supervisor) while working fully remote.
